WORK EXPERIENCE

Belvista Software - Consulting Agency Rochester, New York
Junior Software Developer (Full-Time) - On-Site **Jun. 2026 - Present**

- Participated in daily stand-ups regarding various client-related solutions.
- Contributed to both Belvista's internal and external clients' product development.
- Had a chance to work across the full stack: React, C# (.NET), and SQL (T-SQL).

EZ-Booker (now Expiriento) - Tours & Activities Channel Manager Dubrovnik, Croatia
Full-Stack Developer (Contract) - Remote **Sep. 2024 - Jun. 2026**

- Co-maintained the software solution made in React and PHP with the CEO.
- Communicated with stakeholders regarding application upgrades and bug fixes.
- Helped build the software solution which led to its recent acquisition by Hoteza.

EZ-Booker (now Expiriento) - Tours & Activities Channel Manager Dubrovnik, Croatia
UI Integration Specialist (Internship/Full-Time) - Hybrid **Jun. 2024 - Sep. 2024**

- Developed a hybrid application using React for the clients' on-the-go needs.
- Contributed to live production updates through GitHub and AWS on a daily basis.
- Helped increase our clients' overall seasonal profits by 80% on average.

PROJECT EXPERIENCE

EZ-Booker Hybrid Web Application | Internship Project **Jun. 2024 - Sep. 2024**

- Developed an alternative hybrid application using React for the clients' on-the-go needs.
- Integrated the frontend components with the existing PHP API backend.
- Credited with improving client retention and onboarding of new clients by 50%.
- Helped increase our clients' overall seasonal profits by 80% on average.
